

**Expression of Interest (EOI) for production of TMR with fortified straw/crop residue under Public Private Partnership (PPP)
mode-Clarifications on the Queries raised in the pre bid meeting held on 16.6.2017**

S no	issue	Clarification
1	As per the EOI, it is proposed to have one TMR Plant in each district. However, there are no participants for Srikakulam, Vizianagaram, kurnool, Kadapa, Anantapur and Chittor and for other districts there are 2/3 contenders	The Participants are advised to indicate the names of three districts in the order of preference in the EOI and the Department is also free to allot uncovered districts to some of them.
2.	Availability of subsidy- Machinery	It has been clarified that 50% Subsidy is available on cost of machinery, however the units which availed the subsidy earlier are not eligible second time. If they wish to have another unit in some other district.
3.	As per EOI, state Govt. will also support the go-downs for storage of raw material and finished product- % of subsidy and amount	The extent of storage space required, its cost and the support to be extended is under examination of DAH
4	Regarding protein level in the TMR, the participants expressed that 15% is on high side and it may be around 12% level	It is proposed to have two types of TMR i.e. Type I-12% Protein and Type-II- 15 % protein levels
5	Size of Mash	The size of mash may be 0.5 to 1.0 cm
6	The Proportion of Mash, Blocks and pellets required to be supplied to department may be made known, so that the machinery and total investment required can be arrived.	Normally the demand is more for mash and blocks. Accordingly, the proposal may be for these two forms of TMR only
7	Net worth Statement-Is it applicable for individuals also	Applicable to company's/ firms as per the format
8	PPP exposure -whether it can be in any field	It may be for any activity with documentary evidence
9	Buy back guarantee- assured by the nodal agency till the recovery of interest free loan provided by the Govt. as advance- What will happen subsequently	The buy back is assured to the PPP partner till the recovery of interest free loan provided by Govt. and also partner's investment including bank loan. Simultaneously one can explore other markets
10	Technical knowledge on TMR- Source on technology , equipment, formulations, etc	The participants were advised to approach Faculty of Nutrition department of veterinary university for more clarifications on technologies involved, formulations, etc.
